

stone heart collection

bring a touch of Spain to your table top with new stone heart from Ceramiques Graupera

stone heart is made from 100% natural materials, combining the four elements of nature: earth, water, air and fire. drawing 60 years of pottery artisan heritage, stone heart designs fuse the roots of classic ceramic elaboration and a variety of innovative glazes with modern designs that retain their natural essence.

INSPIRED INNOVATION

Graupera's Stone Heart Collection

defines the evolution of classical terracotta to the demands of today's foodservice market. More resistant... and less porous

100%
NATURAL

durable & versatile

classic terracotta look in a totally watertight, resistant and durable material, which can be used in the microwave, freezer, dishwasher and oven

maximum resistance

the high cooking temperature used to create stone heart provides superior resistance to shocks and scratches

cheforward™ is the exclusive North America distributor of Graupera's stone heart collection
