# Why Flameless Candles?

## COST EFFICIENT

Businesses save thousands per year compared to traditional candles.

## SAVES TIME

No more time spent looking for lighters and re-lighting candles every shift.

## NO FIRE HAZARDS

Flameless candles eliminate the risk of burning and catastrophic fires.

## ENVIRONMENTALLY FRIENDLY

Our candles last several years on average. This means significantly less waste compared to fuel cell candles and other consumable candle options.

## COST SAVINGS SUMMARY

Not only will flameless candles provide a stunning ambiance to your environment, but they will improve your bottom line, allowing you to make your investment back within six months and pocket the savings thereafter.

*"We used to work with another company, but always had problems with their candles. They wouldn't even stay lit for an entire shift. Making the switch to The Amazing Flameless Candle has been excellent. The quality far exceeds our previous product, and they are easy people to do business with."*

Newly designed candle flame featuring the most natural flame shaped tip, the most natural light color and the most natural flicker pattern.

Turn the candle on-and-off with the press of a button, or use the remote control to set a daily timer, adjust brightness and more!

The most durable construction offered in the industry allows them to take a beating (which they will) and keep burning. If you leave them on the patio or drop them in a puddle, they will still work.

# PERFORMANCE CANDLES

Built from the ground up to provide all the essential needs of a demanding restaurant environment, the Performance Series candles are highly durable, completely waterproof, offer 5 light colors, 3 flicker patterns and a patented charging system that creates the ultimate battery conditioning platform designed to increase the useful life of the candles.

Two LED lights combined within the unique light shape to create the brightest, most natural candle flicker from any flameless candle on the market.

Turn the candle on-and-off with the press of a button, or hold the button down to switch between one of 3 different flicker patterns.

The most durable construction offered in the industry allows them to take a beating (which they will) and keep on burning. If you leave them on the patio or drop them in a puddle, they will still work.
